

## DALIA IBRAHIM, MD, MPH DINA SEIF, MD, MBA

### Infuse Ketamine Treatment Center

Infuse Ketamine Treatment Center offers a breakthrough treatment for mental health and chronic pain patients who have not found relief with traditional treatment. The center is operated by **Drs. Dalia Ibrahim and Dina Seif**, two board-certified physicians who have been helping patients find hope and healing with ketamine since 2019.

In recent years, researchers and physicians have seen the astounding effects ketamine has for those with mental health issues and mood disorders, including depression, anxiety, obsessive compulsive disorder, and post-traumatic stress disorder. In fact, ketamine can rapidly improve symptoms in patients who do not get relief from antidepressant and anti-anxiety medications; clinical trials have demonstrated that up to 80% of people who suffer from depression

or suicidal thoughts get significant improvement in their symptoms after ketamine infusion therapy.

If you are considering ketamine therapy, you want experienced care you can trust. Dr. Ibrahim is double board-certified in Internal Medicine and Gastroenterology and has expertise managing medications for mood disorders and pain conditions. Dr. Seif is board-certified in Emergency Medicine and has extensive experience with ketamine in the emergency setting as well as managing psychiatric emergencies and pain crises. Both Dr. Ibrahim and Dr. Seif are members of the American Society of Ketamine Physicians and participate in collaborative work within the multidisciplinary ketamine community.

"Our clinic provides a safe, calming environment for our patients to

experience the benefits of ketamine treatment. All evaluations and treatments are administered by a physician and each treatment is custom-tailored for the unique, individual needs of each of our patients," says Dr. Seif. "We take pride in the time we spend getting to know our patients and feel privileged to help them on their path to wellness."
